

S&S DRUG:

YOUR Diabetes Destination Pharmacy of North Central Kansas... YOUR Community Pharmacy

We know treating diabetes can be expensive. That's why understanding your insurance coverage, benefits, and reimbursement options are so important. S&S Drug is here to help.

Laura Randall

*Our on-staff Medication
Adherence and Diabetes
Consultation Specialist*

Important:

Patients filling diabetic test strip prescriptions were recently sent a letter from Medicare encouraging them to switch to mail-order. S&S Drug wants their patients to know that they DO NOT have to switch their diabetic testing supplies to mail order and that S&S Drug will still be able to process all insurance claims through the Medicare Part B and supplement insurance.

As the Diabetes Destination Pharmacy of North Central Kansas Our Goals Are:

1. Expand our diabetic offerings at S&S Drug
2. Communicate the personalized care available from S&S Drug to patients with diabetes

*S&S carries TRUEResult
and TRUETrack from
Sunmark*

As your community and diabetes destination pharmacy these are just a few of the key advantages S&S Drug can provide as your diabetic testing supplier versus a mail order pharmacy.

- **Face to Face Interaction**
Our pharmacists will have the ability to get to know each of our patients and understand their conditions and medications allowing us to provide personalized consultations and expert advice.
- **Medication Adherence and Diabetes Consultation**
S&S Drug's pharmacists will have the ability to monitor patients' medication treatments to avoid any potential drug interaction issues.
- **Educational Services**
Beginning in August S&S Drug will pool local resources to offer monthly educational materials, services, and classes that help our patients better manage their diabetes.

**Choose S&S Drug for your
diabetes testing supplies.**

THANK YOU
TO OUR
PATRONS!**

What S&S Drug Has Taught Me

Katie Mispagel

Katie is in her fourth year of pharmacy at KU and spent the whole month of June with S & S Drug learning about community pharmacy. Katie is from the KC area and her grandfather is Paul Mispagel who was born and raised in Beloit. Marlene Mispagel is Katie's great aunt as well! We were thrilled to have yet another pharmacy student this year, thanks Katie for a great 4 weeks!

“As a student intern at S&S for the month of June, I have learned a great deal about independent pharmacy. It is evident that S&S plays a huge role in the Beloit community. The close relationships patients have with their pharmacists, the family atmosphere of the store, the various services offered, and the close collaboration with other local healthcare providers make S&S an indispensable part of life in Beloit.

I really appreciate the way the staff genuinely cares about their patients and go out of their way to serve them. This experience has confirmed my desire to pursue a career in small-town independent pharmacy. I hope to provide the excellent level of care and implement the strong values S&S Drug offers.”

-Katie Mispagel

Like most individuals who work in a pharmacy the team members of S&S Drug have joined this profession to help others. It is S&S Drug's goal to make a difference in our community. The members of the S&S Drug family have chosen this career path to work hard to develop trusting relationships and make their patients feel comfortable and at ease

Vitamin of the Month:

CoenzymeQ10

Recommended by our current Pharmacy Student, Katie Mispagel

Coenzyme Q10 is a vitamin-like compound also called ubiquinone. It is an essential component of cells and is necessary for mitochondrial energy production. Years of research has shown that CoQ10 supports healthy cardiovascular and immune system functions in addition to its vital role in energy production.
